- **SOC 4246**: Sociology of Health and Illness (3.0 cr)

The rest of the courses in the Public Health concentration may have a PUBH designator and the following courses are particularly recommended:

PubH 3010: Public Health Interventions for AIDS
PubH 3040: Dying and Death in Contemporary Society: Implications for Intervention
PubH 3102: Issues in Environmental and Occupational Health
PubH 3104: Environmental Health Effects: Introduction to Toxicology
PubH 3106: Making Sense of Health Studies
PubH 3107: Global Public Health and the Environment
PubH 3202: What is Public Health?
PubH 3300: Topics: Clinical Research
PubH 3315: Clinical Research from Lab to Bedside Populations
PubH 3350: Epidemiology: People, Places, and Disease
PubH 3601: Global Public Health Issues
PubH 3639: Prevention: Theory Practice, and Application in Public Health Services
PubH 3801: Health Economics and Policy
PubH 3810: Math Review for Public Health I
PubH 3905: Human Nutrition and Health
PubH 3940: Concepts and Controversies in Public Health, Nutrition, and Health Promotion
Gero 5105: Multidisciplinary Perspectives on Aging
Gero 5110: Biology of Aging
Gero 5115: Introduction to Geriatrics

Note: A statistics course from another department is strongly recommended; however, such a course will not count toward the total credits in the Public Health concentration.
