PUBLIC HEALTH CONCENTRATIONS

All Public Health areas of concentration must be designed in close consultation with Carol Francis, Adviser in the School of Public Health, 612-626-3500 or franc004@umn.edu. Students must complete one of the following two courses:

- PubH 3001: Personal and Community Health
- PubH 3004: Basic Concepts in Personal and Community Health

The following courses are particularly recommended:

PubH 3003: Fundamentals of Drug and Alcohol Abuse (if didn't take 3004)
PubH 3010: Public Health Interventions for AIDS
PubH 3040: Dying and Death in Contemporary Society: Implications for Intervention
PubH 3091/3092: Practicum in Peer Education (requires permission from Boynton)
PubH 3201: Issues in Environmental Health
PubH 3301: Perspectives: Interrelationships of People and Animals in Society Today
PubH 3801: Health Economics and Policy
PubH 5074: Mass Communication and Public Health
PubH 5639: Prevention: Theory, Practice, and Application in Public Health Service
PubH 5905: Human Nutrition and Health
PubH 5628: Race, Class, and Family Formation

Note: A statistics course from another department is strongly recommended; however, such a course will not count toward the total credits in the Public Health concentration.

FAMILY SOCIAL SCIENCE CONCENTRATIONS

Students proposing a Family Social Science concentration must complete FSoS 1101: Intimate Relationships. Concentrations must consist of exactly 15 credits of 3/4xxx-level coursework; larger concentrations are not allowed. Concentrations must include FSoS 3102: Family Systems and Diversity plus four additional courses from the following list:

FSoS 3101: Personal and Family Finance
FSoS 3104: Global and Diverse Families
FSoS 3426: Alcohol and Drugs: Family and Culture
FSoS 3429: Counseling Skills Practicum I
FSoS 4101: Sexuality and Gender
FSoS 4103: Family Policy
FSoS 4104: Family Psychology
FSoS 4106: Family Resource Management
FSoS 4152: Gay, Lesbian, and Bisexual Persons in Families
FSoS 4154: Families and Aging
FSoS 4155: Parent-Child Relationships

FSoS concentrations should be designed in close consultation with Dr. William Goodman, Family Social Science Department, 290 McNeal Hall, St. Paul Campus, 612 625-1282 or wgoodman@umn.edu.
COLLEGE OF HUMAN ECOLOGY CONCENTRATIONS

Several additional minor programs housed in the College of Human Ecology may be used as models for BIS non-CLA areas of concentration.* Students with concentrations in these areas may be required to take 1/2xxx-level preparatory courses, but only courses numbered 3xxx and above will be included in the BIS program. Consult the minor program adviser for assistance in designing your BIS concentration.

Family Violence Prevention : Andrew Kiel or Lisa Quinn, School of Social Work, 169 Peters Hall, St. Paul Campus, 612 624-4290

Housing Studies : Andrea Raich, adviser, Design, Housing, and Apparel, 250 McNeal Hall, St. Paul Campus, 612 624-0755 or araich@umn.edu

Retail Merchandising : Andrea Raich, adviser, Design, Housing, and Apparel, 250 McNeal Hall, St. Paul Campus, 612 624-0755 or araich@umn.edu

Youth Studies : Marcus Pope, adviser, School of Social Work, 175 Peters Hall, St. Paul Campus, 612 624-8785 or mpope@umn.edu

*BIS concentrations are not allowed in the following College of Human Ecology fields: Clothing Design, Graphic Design, Interior Design.

DESIGN STUDIES CONCENTRATIONS

Design Studies Concentrations may be modeled on the interdisciplinary minor offered through the Design Institute. The concentration may count as a "liberal arts" concentration or a "non-liberal" arts concentration depending upon the courses included. Consult Wendy Friedmeyer, Design Institute, 308 Northrup Auditorium, 612 624-4461 or Fried053@umn.edu

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT CONCENTRATIONS

BIS concentrations are not ordinarily allowed in the following College of Education and Human Development programs:

- Kinesiology
- Human Resource Development
- Recreation, Parks, and Leisure
- Sports Studies

non-CLA reqs 9.04
